CURSOS

Feb 2021 - Present

JavaScript Full Stack Web Development
The Odin Project

At the moment, I've completed a self-taught Front End Course, following The Odin Project curriculum (www.theodinproject.com) . I'm continuing with the curriculum to complete the Back End course, to compleate my Full Stack skills. I've learnt advanced HTML and CSS, JavaScript, React.js, working tools like API's, modules, Webpack, SOLID principles, etc. Now, learning Node.js, and some frameworks (EXPRESS & MongoDB) and tools like Mongoose.
